

## **drive on**

I drive on, I drive on,

I drive on.

I drive on in the city, on on in the city.

I drive on in the city, on on in the city.

I drive on in the city, on on in the city.

I drive on in the city, on on in the city,

when they see me off the streets,

i turn the music very loud and feel the beat,

i accelerate, my engine is running,

me and my car, it fits together perfectly,

they envy me for him, i'm in that supercar.

I'm in that supercar?

Yeah, that's my supercar,

when I rush by, look behind,

drive this race, get everything,

that has always been my goal,

you want that I will come back, but this is my life,

Of the empty streets i make a race,

and the world has changed,

press the accelerator pedal and disappear,

and the dust of the past is stirred up,

You envy me because I made it.

I drive on in the city, on on in the city.

I drive on in the city, on on in the city,

drive on, east side,

drive on, south side,

drive on, west side.

I drive on in the city, on on in the city.

I drive on in the city, on on in the city,

drive on, east side,

drive on, south side,

drive on, west side.

Half 1, half 2, and nobody stops me,

one way, one goal, i don't need you,

big engine, big pride, you know that I can do it,

the lights white, the streets off the city dark.

Inside old car, outside a new car,  
pocket full of money, under the hood a holley,  
from the exhaust roaring sound,  
my fucking time fizzles,  
between happiness and success, between the lines that I write,

they know that I can do it and because of that they hate me because they can not live without me, come after me and tell me  
they need me, it's good to go further towards the sun.

I drive on in the city, on on in the city.  
I drive on in the city, on on in the city,  
drive on, east side,  
drive on, south side,  
drive on, west side.

I drive on in the city, on on in the city.  
I drive on in the city, on on in the city,  
Drive on, east side,  
Drive on, south side,  
Drive on, west side.

I drive on. I drive on.  
I drive on.  
I drive on in the city, I drive on in the city.  
I drive on in the city, I drive on in the city.  
On.

I feel like I leave everything behind,  
I feel like I leave them behind,  
feel like I'm getting closer and closer to my goal,  
i'm the only one who got it and this is good.

I need no money and no fame  
do not give them a chance to change  
do not give me a chance to forgive them,  
they have to attribute it to themselves.

I my nightmares came, showed me where I came from,  
i know it was not fair, but neither was it, and that's just bad,  
They say damn, Steve Steve, you don't know us no more.

Thanks to you, I got fame, homies,  
and you want to change, homies,  
but now it is too late,  
You missed your Chance.

i see what I have tonight, what i have tonight,  
see in the sky, in the sky,  
see flickering lights, flickering lights,  
every night, every night,  
I drive on,

I drive on in the city, on on in the city.  
I drive on in the city, on on in the city.  
Drive on, east side.  
Drive on, south side.  
Drive on, west side.

I drive on in the city. I drive on in the city.  
I drive on in the city. I drive on in the city.  
Drive on, east side.  
Drive on, south side.  
Drive on, west side.
