

Four Saison

Life is :
like the weather
Not every day the sun shines.
It also rains sometimes

Life is also like the seasons.

Spring!
Is like the child.
Playful, curious, developing,
And learn life

Summer!
Is like a teenager. Party.
fun... first love, enjoy life
wants to conquer the world.

Autumn!
Is an adult person.
Who stands with both legs in life. The responsibility has towards family and job

Winter!
Is an elderly person,
That has already experienced everything
Now he is sitting in front of the fireplace
and enjoy the heat ..

He now remembers the sun, rain and thunderstorms. At the spring, summer and autumn.
