

Can't speak it out

It's the first time since so many years/
After crying so many tears/
I feel happy, but I can't believe/
I'm overthinking because I'm afraid/
I have so many questions/
There are so many words in my head/
But I can't speak it out/
There are so many thoughts in my head/
But I can't speak it out/
I'm afraid of the answer/
That you don't feel like me/

Please take my hand/
Please stand by me/
Please take my heart/
Please take care of it/

Please take my fear/
Please dry my tears/
Please take my hand/
But I can't speak it out/

It's the first time since so many years/
After crying so many tears/
I feel happy, but I can't believe/
I'm overthinking because I'm afraid/
And I want to take your hand/
I want to kiss your lips/
But it's still in my head/
And I can't speak it out/
There's a dream in my head/
But I can't speak it out/
I'm afraid of the answer/
That you don't feel like me/

Please take my hand/
Please stand by me/
Please take my heart/
Please take care of it/

Please take my fear/
Please dry my tears/
Please take my hand/
But I can't speak it out/

I want to see you/
I want to feel you in my arms/
But I'm not so confident/
I can't speak it out/

I want to see you/
I want to tell you what I feel/
But I'm not so confident/
I can't speak it out/

Please take my hand/
Please stand by me/
Please take my heart/
Please take care of it/

Please take my fear/
Please dry my tears/
Please take my hand/
But I can't speak it out
