

## Monsters

Can you hear me/  
(When I'm screaming)  
Can you hold me/  
(Help me healing)

There's a monster in my head/  
That let me stay awake/  
When I lay in my bed/  
It captures all my dreams/  
And it stifles all my screams/  
It laughs at how I feel /  
And I can't fall asleep/  
When I lay in my bed/  
With this monster in my head/

My monsters are real/  
And I can't run away/  
They come when I fall asleep/  
And let me stay awake/

These monsters can fight/  
They're in my soul and my head/  
And they never let me die/  
They're only make me feel so sad/

There's a monster in my soul/  
That let me feel so cold/  
And never let me go/  
It catches all my thoughts/  
And it feeds on my doubts/  
It laughs at how I feel/  
And I can't fall asleep/  
When I lay in my bed/  
With this monster in my head/

My monsters are real/  
And I can't run away/  
They come when I fall asleep/  
And let me stay awake/

These monsters can fight/  
They're in my soul and my head/  
And they never let me die/  
They're only make me feel so sad/

I'm fighting with my monsters/  
In the darkness of the night/  
But I can't win against them/  
Can you be my light/  
And help me win this fight/  
Please stay on my side/  
In the darkness of the night/  
And bring the light/  
Into my life/  
In the darkness of my life/  
The darkness of the night/

My monsters are real/  
And I can't run away/  
They come when I fall asleep/  
And let me stay awake/

These monsters can fight/  
They're in my soul and my head/  
And they never let me die/  
They're only make me feel so sad
